

RJ45 Keystone Modul
RJ45 Keystone module
ZN101

Beschreibung

Das RJ45 Keystone Modul eignet sich ideal für die Montage in Patchfeldern.

Installation

Die Installation darf nur durch eine Elektrofachkraft oder eine elektrotechnisch unterwiesene Person erfolgen.

Technische Highlights

- Für die Montage kein LSA Werkzeug notwendig
- Erdungsschnellanschluss (Flachsteckanschluss)
- Passendes RJ45 Keystone Modul für Patchpanel Modular

Description

The RJ45 Keystone module is ideal for mounting in patch panels.

Installation

The installation may only be carried out by a qualified electrician or a person trained in electrical engineering.

Technical Highlights

- No LSA tool required for mounting
- Quick earth connection (flat plug connection)
- Suitable RJ45 Keystone module for patch panel modular

RJ45 Keystone Modul/RJ45 Keystone module (ZN101)

Gehäuse Housing	Zinkdruckguss Zinc diecast
Schirmblech Shield	Neusilber German silver
Leiterplatte Printed Circuit Board (PCB)	FR4 UL94 V0
Umgebungstemperatur Ambient temperature	-40°C bis +70°C -40°C to +70°C
IP-Schutzarten Degrees of protection provided by enclosures (IP code)	IEC 60529
Elektrische Eigenschaften	
Kontaktwiderstand Contact resistance	≤ 20 mΩ
Isolationswiderstand Insulation resistance	≥ 500 MΩ
<u>Spannungsfestigkeit/Dielectric Strength:</u> Kontakt-Kontakt/Contact-Contact Kontakt-Schirm/Contact-Shield	≥ 1000 V, DC ≥ 1500 V, DC
Strombelastbarkeit bei 50°C Current carrying capacity at 50°C	1 A
PoE + gemäß IEEE 802.3at PoE + according to IEEE 802.3at	Geeignet für Power over Ethernet Adequate for Power over Ethernet
Gewicht (Brutto) Weight (Gross)	25g
